Transversal Model for Migrants

Newsletter 5 – Piloting results

During the last months of the project “Transversal Model for Migrants”, the partners from France, Greece, Cyprus, Portugal, Bulgaria, Spain and Turkey were finalizing their national pilotings, testing the tools and the online platform. The main objective was the empowerment of teachers, trainers and counsellors to facilitate and empower migrants with skills in order to promote higher job position or economic and social integration within Europe.

Even during the pandemic, the consortium managed to complete successfully the task.

France:

On February 2020, ITG conducts its piloting session. This piloting and experimentation event, brought together 4 migrant workers and 6 professionals in charge of training and supporting migrants. They point out their expectations and rated their satisfaction on the work carried out by the partnership. They really liked that the contents were available in French, they appreciate, the fact documents are very detailed and useful.

Transversal Model for Migrants

Cyprus:

Either face-to-face or online, the piloting sessions were very successful! Both trainers and migrants enjoyed the project's activities, developed skills like teamwork and stress management, and exchanged experiences, ideas and suggestions for the integration of migrants in education and in the labour market.

Portugal:

During the COVID-19 lockdown, in June 2020, Mindshift promoted a ZOOM event with 10 professionals. This online piloting session was very interesting, and besides the external validation of the project's outputs, participants had the opportunity to share their experience in

Transversal Model for Migrants

Bulgaria:

6 Bulgarian career practitioners gathered on the 19th, December, 2019 for a pre-pilot session. Interactive face to face workshops have

been designed and organized for this process. The actual piloting has been affected by Covid-19 and the process actually started with

real environment implementation of the flexibility and adaptability topics through arranging the piloting phase in online mode. The piloting took places in two sessions - one in April and one in July. 12 professionals implemented the project's intellectual outputs and highly appreciated their practicality, usefulness and professional design.
